National foreword

This British Standard is the UK implementation of ISO 20816-1:2016. It supersedes BS ISO 7919-1:1996 and BS ISO 10816-1:1995+A1:2009 which are withdrawn.

The UK participation in its preparation was entrusted to Technical Committee GME/21/5, Mechanical vibration, shock and condition monitoring - Vibration of machines.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
